MemKeys — mark + wordmark lockup

ISI-5838 · mark = REV3 "M3 gradient @ + keyhole" (ISI-5828, 6ab8e0d) · wordmark = IBM Plex Sans Bold, outlined · ring grad

PRIMARY · HORIZONTAL

clearspace = 1 × mark-height
(dashed edge of artboard)

STACKED (avatars, social, swag)

REVERSED (on dark)

MONO (single-ink; keyhole → ink)

MINIMUM SIZES

- Horizontal lockup: wordmark cap-height ≥ 12px — below that, drop the wordmark, use the mark alone.
- Stacked lockup: mark ≥ 24px. • Standalone mark favicon floor: 16px (per address-kit.svg).
- Wordmark is single-ink; the one accent (yellow) lives ONLY in the mark keyhole — never on the letters.
- camelCase preserved (capital M + capital K) — the wordmark reads as a developer identifier / a key.

INK cobalt #17356F

GRADIENT END azure #3E6FD9 (ring 135°

ACCENT yellow #F7C948 (keyhole only)
